

INTERNATIONAL SEARCH REPORT

International application No.
PCT/AU2004/001772

A. CLASSIFICATION OF SUBJECT MATTER Int. Cl. ⁷ : A61K 31/44, A61K 31/4355, A61P 25/04 According to International Patent Classification (IPC) or to both national classification and IPC		
B. FIELDS SEARCHED Minimum documentation searched (classification system followed by classification symbols) IPC AS ABOVE Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched AU – Inventor/Applicant Search Electronic data base consulted during the international search (name of data base and, where practicable, search terms used) Derwent World Patent Index, Medline (flupirti*/katadolon/metanor/trancopal dolo)& (neuropath*/inflamm*/allodyni*/hyperalgesi*)		
C. DOCUMENTS CONSIDERED TO BE RELEVANT		
Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X A	EP 0207 193 A2 (Degussa AG.) 7 January 1987. See page 2 column 1.	1 – 3, 13 – 15, 23 – 25, 40
X A	US 4 778 799 B2 (Tibes, U et al.) 18 October 1988. See column 12.	40
X A	CA 2 314 746 A1 (Asta Medica AG.) 3 February 2001. See page 15.	1 – 5, 13 – 17, 23 – 27, 40, 41
X A	US 6 610 324 B2 (Stoll, Andrew L.) 26 August 2003. See columns 5 and 6.	1, 2, 13, 14, 23, 24, 36, 40
<input checked="" type="checkbox"/> Further documents are listed in the continuation of Box C <input checked="" type="checkbox"/> See patent family annex		
* Special categories of cited documents: "A" document defining the general state of the art which is not considered to be of particular relevance "E" earlier application or patent but published on or after the international filing date "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified) "O" document referring to an oral disclosure, use, exhibition or other means "P" document published prior to the international filing date but later than the priority date claimed	"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art "&" document member of the same patent family	
Date of the actual completion of the international search 23 February 2005		Date of mailing of the international search report - 7 MAR 2005

INTERNATIONAL SEARCH REPORT

International application No.

PCT/AU2004/001772

Box No. II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☐ Claims Nos.:
because they relate to subject matter not required to be searched by this Authority, namely:
2. ☐ Claims Nos.:
because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:
3. ☐ Claims Nos.:
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a)

Box No. III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

1. Claims 1, 2, 11, 12, 23, 24, 34, 35, 36 and 40 to 42, and 38 and 39 (in part) define one invention, use of flupirtine alone in treatment of neuropathic or inflammatory pain. (See extra sheet)

1. ☐ As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
2. ☒ As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. ☐ As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:
4. ☐ No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

Remark on Protest

- ☐ The additional search fees were accompanied by the applicant's protest.
- ☐ No protest accompanied the payment of additional search fees.

INTERNATIONAL SEARCH REPORT

PCT/AU2004/001772

Supplemental Box

(To be used when the space in any of Boxes I to VIII is not sufficient)

Continuation of Box No: III

2. Claims 3 to 6, 25 to 27 and 37, and 38 and 39 (in part), use of flupirtine in combination with another agent, in treatment of neuropathic or inflammatory pain.
3. Claims 7 to 10, 16 to 18 and 29 to 33, use of flupirtine, an opioid and another active agent.
4. Claims 13 to 15 and 19 to 22 use of flupirtine and three other agents in combination.

Information on patent family members

International application No.

PCT/AU2004/001772

This Annex lists the known "A" publication level patent family members relating to the patent documents cited in the above-mentioned international search report. The Australian Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
